Top up your immunity this winter.

Vaccines are the best protection we have against dangerous viruses like flu and COVID-19. Find out if you're eligible for these two essential vaccines now at nhs.uk/wintervaccinations

This winter, both COVID-19 and flu may circulate at high levels, potentially at the same time.

Ahead of what could be a difficult season, millions of people are being offered vaccination to help protect them over the coming months.

There is evidence to show that if you get flu and COVID-19 at the same time you are at higher risk of becoming seriously unwell. As this is the first winter since COVID-19 emerged without restrictions in place, the best way to protect yourself from getting unwell from either is to get vaccinated.

Do you offer mental health or wellbeing support in your community?

We are writing to invite you to be involved in a unique and exciting opportunity to support the transformation of mental health support in the Derbyshire Dales.

What to expect:

- Listen to stories from brilliant and brave local people who have lived experience of mental health challenges
- Get to know different people and organisations over lunch and a brew
- Set up a stall to share information and resources about your organisation
- Bring to life a bold new vision for person-centred, holistic and community based care and support across the Dales.

If you would like to join and set up a stall for your organisation, please contact daisy.carter@innovationunit.org
