## Wirksworth Town Council

Capital Funding of £9,001.60 Toilet doors. **Partial Award**

Project complete

Wirksworth Town Council

Thanks to the grant we now have these amazing after pictures! Solid doors with an automatic locking system meaning the toilets can stay open longer, and our staff are safer when lone working and after opening hours.

**Bonsall Village Hall Capital Funding of £8,624** Solar panels and battery. Panel agreed to fund 70% of the Total Project Cost as opposed to the 50% they applied for.

Battery was damaged – discovered issue during the installation. Awaiting new one to be delivered.

**Darley Dale Scouts Group Capital Funding of £8,000 For insulation of Scout Building.**

### **Hurst Farm Regeneration Ltd Capital Funding of £6,813**

Please explain how the project is progressing

We have appointed Projan Electrical as contractor for the electricity and water connection, and met on site on 13th January to agree a plan of works and start date w/c 26th January. They have subcontracted Phoenix Plumbing and a self employed digger driver to complete the works, all involved are residents of Hurst Farm Estate.

The base for the shed will be laid w/c 26th January and the shed itself is ordered awaiting delivery, anticipated by the end of January. We have a team ready to build the shed.

Beekeeping equipment and candlemaking equipment will be purchased when the funds arrive, in readiness for the 2026 season – the bees are currently dormant until the weather warms up. We are planning volunteer activity, short courses and engagement with schools to take advantage of these new resources.

9/2/2026 Electricity and water is now fitted and successfully working in the garden. The shed for the base is also laid, so this element is complete. We are waiting for the funds to arrive to purchase the candle making and bee keeping equipment, and to pay Projan Electrical and contractors.

**Medway Community Centre Capital Funding of £6,574** partial award for replacement windows.

*Attached is the final monitoring form and copy invoices.*

*We have one further payment to make to the Window company but they have faced production delays and will not now be able to complete the works until 27th March 2026 so we have withheld the final amount.*

**Osmaston Polo Ground Capital Funding of £7,168 for sewerage / drainage works**

**Sudbury Gasworks Regeneration Trust Capital Funding of £11,550 partial award for outbuildings.**

**Project complete.**
